Teaching Tip #2 TEFL ideas for new teachers

BASIC PRINCIPLES 1 – STUDENT AND TEACHER

1. Learning is more important than teaching.
2. Teach the students, not the book.
3. Involve students in the learning process (personalization is the key to success).
4. Don't tell the students what they can tell you.
5. Show your reaction to what students say.
6. Students need practice, not you!
7. Don't emphasize difficulties.
8. Vary what you do and how you do it.
9. Select!
10. Activities and relationships in the classroom change.
11. Students need to learn how to learn.
12. Useful and fun is better than either alone.
13. We all learn best when we are relaxed.
14. Students can be silent but still involved.

BASIC PRINCIPLES 2 – LANGUAGE AND LANGUAGE LEARNING

1. Language is a means of communication.
2. Language is a habit.
3. Language is a set of conventions.
4. Language is a natural activity.
5. English is not a syllabus.
6. English is not my English.
7. Language is WHAT, HOW and WHY.
8. "Level" is a complex idea.
9. Natural language has a place in all courses.
10. Knowing the language is not enough.
11. Hear, Speak, Read, Write is a good sequence.
12. Language learning is cyclical.
13. Language is used for different purposes in the classroom.
14. Motor skills need practice.
15. Distinguish clearly between accuracy and fluency practices.

16. Interesting communicative tasks create motivation.
17. Students learn to speak by listening.
